Specifications are subject to change without notice. Trademarks are the property of Koninklijke Philips Electronics N.V or their respective owners. Philips reserves the right to change products at any time without being obliged to adjust earlier supplies accordingly. The material in this manual is believed adequate for the intended use of the system. If the product, or its individual modules or procedures, are used for purposes other than those specified herein, confirmation of their validity and suitability must be obtained. Philips warrants that the material itself does not infringe any United States patents. No further warranty is expressed or implied.

Terms of warranty

- Risk of injury, damage to TV or void of warranty! Never attempt to repair the TV yourself.
- Use the TV and accessories only as intended by the manufacturer.
- The TV has one of the following caution signs printed on the back.

The caution sign indicates risk of electric shock. Never remove the TV cover. Always contact Philips Customer Support for service or repairs.

- Any operation expressly prohibited in this manual, or any adjustments and assembly procedures not recommended or authorised in this manual, shall void the warranty.

Pixel characteristics

This LCD product has a high number of colour pixels. Although it has effective pixels of 99.999% or more, black dots or bright points of light (red, green or blue) may appear constantly on the screen. This is a structural property of the display (within common industry standards) and is not a malfunction.

Compliance with EMF

Koninklijke Philips Electronics N.V. manufactures and sells many products targeted at consumers which, like any electronic apparatus, in general have the ability to emit and receive electromagnetic signals.

One of Philips' leading Business Principles is to take all necessary health and safety measures for our products, to comply with all applicable legal requirements and to stay well within the Electro Magnetic Field (EMF) standards applicable at the time of producing the products.

Philips is committed to develop, produce and market products that cause no adverse health effects. Philips confirms that if its products are handled properly for their intended use, they are safe to use according to scientific evidence available today.

Philips plays an active role in the development of international EMF and safety standards, enabling Philips to anticipate further developments in standardisation for early integration in its products.

2 Important

Read and understand all instructions before you use your TV. If damage is caused by failure to follow instructions, the warranty does not apply.

Safety

Risk of electric shock or fire!

- Never expose the TV to rain or water. Never place liquid containers, such as vases, near the TV. If liquids are spilt on or into the TV, disconnect the TV from the power outlet immediately. Contact Philips Consumer Care to have the TV checked before use.
- Never place the TV, remote control or batteries near naked flames or other heat sources, including direct sunlight.
  To prevent the spread of fire, keep candles or other flames away from the TV, remote control and batteries at all times.

- Never insert objects into the ventilation slots or other openings on the TV.
- When the TV is swivelled ensure that no strain is exerted on the power cord. Strain on the power cord can loosen connections and cause arcing.
- To disconnect the TV from the mains power, the power plug of the TV must be disconnected. When disconnecting the power, always pull the power plug, never the cord. Ensure that you have full access to the power plug, power cord and outlet socket at all times.

Risk of short circuit or fire!

- Never expose the remote control or batteries to rain, water or excessive heat.
- Avoid force coming onto power plugs. Loose power plugs can cause arcing or fire.

Risk of injury or damage to the TV!

- Two people are required to lift and carry a TV that weighs more than 25 kg or 55 lbs.
- When stand mounting the TV, use only the supplied stand. Secure the stand to the TV tightly. Place the TV on a flat, level surface that can support the combined weight of the TV and the stand.
- When wall mounting the TV, use only a wall mount that can support the weight of the TV. Secure the wall mount to a wall that can support the combined weight of the TV and wall mount. Koninklijke Philips Electronics N.V. bears no responsibility for improper wall mounting that result in accident, injury or damage.
- If you need to store the TV, disassemble the stand from the TV. Never lay the TV on its back with the stand installed.
- Before you connect the TV to the power outlet, ensure that the power voltage matches the value printed on the back of the TV. Never connect the TV to the power outlet if the voltage is different.
- Parts of this product may be made of glass. Handle with care to avoid injury and damage.

Risk of injury to children!

Follow these precautions to prevent the TV from toppling over and causing injury to children:

- Never place the TV on a surface covered by a cloth or other material that can be pulled away.
- Ensure that no part of the TV hangs over the edge of the surface.
- Never place the TV on tall furniture (such as a bookcase) without anchoring both the furniture and TV to the wall or a suitable support.
- Educate children about the dangers of climbing on furniture to reach the TV.

Risk of swallowing batteries!

- The product/remote control may contain a coin-type battery, which can be swallowed. Keep the battery out of reach of children at all times!

Risk of overheating!

- Never install the TV in a confined space. Always leave a space of at least 4 inches or 10 cm around the TV for ventilation. Ensure curtains or other objects never cover the ventilation slots on the TV.

Risk of injury, fire or power cord damage!

- Never place the TV or any objects on the power cord.
- Disconnect the TV from the power outlet and antenna before lightning storms. During lightning storms, never touch any part of the TV, power cord or antenna cable.

Risk of hearing damage!

- Avoid using earphones or headphones at high volumes or for prolonged periods of time.

Low temperatures

- If the TV is transported in temperatures below 5°C or 41°F, unpack the TV and wait until the TV temperature matches room temperature before connecting the TV to the power outlet.

Screen care

- Avoid stationary images as much as possible. Stationary images are images that remain on-screen for extended periods of time. Examples include: on-screen menus, black bars and time displays. If you must use stationary images, reduce screen contrast and brightness to avoid screen damage.
- Unplug the TV before cleaning.
- Clean the TV and frame with a soft, damp cloth. Never use substances such as alcohol, chemicals or household cleaners on the TV.
- Risk of damage to the TV screen! Never touch, push, rub or strike the screen with any object.
- To avoid deformations and colour fading, wipe off water drops as soon as possible.

Disconnect a USB storage device

Caution

- Follow this procedure to avoid damage to your USB storage device.

1 Press ⮌ to exit the USB browser.
2 Wait for five seconds, then disconnect the USB storage device.

Update the TV software

Philips continuously tries to improve its products and we recommend that you update the TV software when updates are available.

What you need

To update with a USB storage device, you need:
- An empty USB flash drive. The USB flash drive must be FAT or DOS-formatted. Do not use a USB hard drive.
- A computer with Internet access
- An archive utility that supports the ZIP file format (for example, WinZip® for Microsoft® Windows® or StuffIt® for Macintosh®).

Check the current software version

1 Press **MENU**.
2 Select **[Setup]** > **[Software settings]** > **[Current software inf]**.
   ↳ The current software information is displayed.
3 Write down the software version number.

Download and update the software version

1 Connect a USB storage device to your PC.
2 On your PC, open a web browser and go to www.philips.com/welcome.
3 Find the information and software related to your TV, and locate the latest software update file.
4 Compare the latest software version number to the current version on your TV.
   - If the current software version matches the latest software update file, you do not need to update your TV software.
   - If the current software version is lower than the latest software update file, download the latest software update file to the root directory of your USB device.
5 Decompress the software update file and copy it to the root directory of your USB storage device.
6 Disconnect the USB storage device from the computer.
7 Connect your USB storage device to the TV.
   ↳ The TV detects the USB flash drive and starts to scan for software version.
8 If a message prompts you to update the software, follow the on-screen instructions to update the TV software.
9 If the message is not displayed, press **MENU**.
10 Select **[Setup]** > **[Update software]**.
   ↳ The TV displays a list of upgrade files on the USB flash drive.
11 Select the file that you downloaded, then press **OK** to update the TV software.
12 Follow the on-screen instructions to complete the update.

Note

- The TV restarts after the software update is complete.

Change TV preferences

Use the preferences menu to customise your TV settings.

1 Press **MENU**.

2 Select **[Setup]** > **[TV settings]** > **[Preferences]**.

3 Select one of the following, then press **OK**.

- **[Menu language]**: Select a menu language.
- **[Sleep timer]**: Switch the TV to standby after a pre-defined duration.
- **[Location]**: Optimise TV settings for your location - home or shop.
- **[E-sticker]**: (For shop mode only) Switch the e-sticker on or off.
- **[Volume bar]**: Display the volume bar when you adjust the volume.
- **[Auto switch off]**: To conserve energy, set the TV to switch off automatically after a period of inactivity.
- **[Channel information size]**: Change the type of information that is displayed when you switch channels.
- **[TV position]**: Apply the best settings for your TV based on how it is mounted. Select **[Wall mounted]** or **[On a TV stand]**.
- **[Teletext 1.5]**: Enable or disable Teletext 1.5.
- **[Clock]**: Display the time or remove it from the TV, and set clock options.

Use options menu

You can select settings related to the content that is being shown on the TV screen.

1 While you watch TV, press OPTIONS.

2 Select one of the following settings, then press **OK**.

- **[Subtitles]**: If available, select whether the subtitles are displayed.
- **[Clock]**: Enable or disable the time display on the TV screen, and set clock options.
- **[Status]**: Display programme information.
- **[Ecology]**: Apply settings that consume less energy.

Start a TV demo

You can use demonstrations to better understand the features of your TV. Some demos are not available on certain models. Available demos are displayed in the menu list.

1 While you watch TV, press **MENU**.

2 Select **[Setup]** > **[Watch demo]**, **OK**.

3 Select a demo and press **OK** to view it.

Reset the TV to factory settings

You can restore the default picture and sound settings of your TV. The channel installation settings remain the same.

1 Press **MENU**.

2 Select **[Setup]** > **[TV settings]** > **[Factory settings]**, then press **OK**.

3 If you are prompted to enter a code, enter the child-lock code using the Numeric buttons (see 'Set or change code' on page 21).
↳ A confirmation message is displayed.

4 Select **[Reset]** and press **OK** to confirm.

6 Install channels

The first time you setup your TV, you are prompted to select a menu language and to install TV channels. Afterwards, you can re-install channels and customise channels in other ways.

Automatically install channels

You can search and store channels automatically.

Step 1: Select your menu language

1. Press **MENU**.
2. Select **[Setup]** > **[TV settings]** > **[Preferences]** > **[Menu language]**, then press **OK**.
3. Select a language, then press **OK**.

Step 2: Search for channels

Start an automatic search for channels to install on your TV. The available channels are installed on the TV.

1. Press **MENU**.
2. Select **[Setup]** > **[Search for channels]**, then press **OK**.
3. Select **[Start]**, then press **OK**.
   ↳ All available channels are stored.
4. To exit, press **OK**.

Manually install channels

This section describes how to search and store analogue TV channels manually.

Step 1: Select your system

Note

- Skip this step if your system settings are correct.

1. Press **MENU**.
2. Select **[Setup]** > **[Channel settings]** > **[Channel installation]** > **[Analogue: Manual antenna installation]**, then press **OK**.
3. Select **[Colour system]**, then press **OK**.
4. Select the correct system for your country or region, then press **OK**.

Step 2: Search and store new TV channels

1. Press **MENU**.
2. Select **[Setup]** > **[Channel settings]** > **[Channel installation]** > **[Analogue: Manual antenna installation]** > **[Find channel]**, then press **OK**.
   - If you know the three-digit frequency of the channel, enter it.
   - To search, select **[Search]**, then press **OK**.
3. When the channel is found, select **[Done]**, then press **OK**.
   - To store the channel as a new number, select **[Store as new channel]**, then press **OK**.
   - To store the channel as the previously selected channel, select **[Store current channel]**, then press **OK**.

Step 3: Fine-tune analogue channels

1 Press **MENU**.
2 Select **[Setup]** > **[Channel settings]** > **[Channel installation]** > **[Analogue: Manual antenna installation]** > **[Fine tune]**, then press **OK**.
3 Press ▲ or ▼ to fine-tune the channel.

Rename channels

You can rename channels. The name appears when you select the channel.

1 While you watch TV, press **BROWSE**.
↳ The channel matrix menu appears.
2 Select the channel to rename.
3 Press OPTIONS.
↳ The channel options menu appears.
4 Select **[Rename channel]**, then press **OK**.
↳ A text input box appears.
5 Press ▲▼◀▶ or **Numeric buttons** to select each character, then press **OK**.
6 When the name is complete, select **[Done]**, then press **OK**.

Tip

- Press **[abc]** to change uppercase letters to lowercase and vice versa.

Rearrange channels

After you install channels, you can rearrange the order in which they appear.

1 While you watch TV, press **BROWSE**.
↳ The channel matrix menu is displayed.
2 Press OPTIONS.
↳ The channel options menu appears.
3 Select **[Reorder]**, then press **OK**.
4 Select the channel to rearrange, then press **OK**.
↳ The selected channel is highlighted.
5 Move the highlighted channel to its new location, then press **OK**.
6 Press OPTIONS.
7 Select **[Done reordering]**, then press **OK**.

7 Connect devices

This section describes how to connect devices with different connectors. For the location of these connectors on your TV, see the Quick Start Guide. More examples of connections with other devices are provided in the Quick Start Guide.

Note

- You can use different types of connectors to connect a device to your TV.

Tip

- After connection, for easy access to your device, add it to the home menu: press **MENU**, then select **[Add new device]**.

Connect a computer

Before you connect a computer to the TV

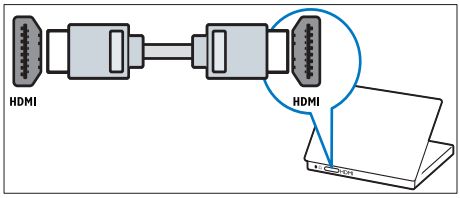
- Set the screen refresh rate on your computer to 60Hz.
- Select a supported screen resolution on your computer.

Connect a computer with one of the following connectors:

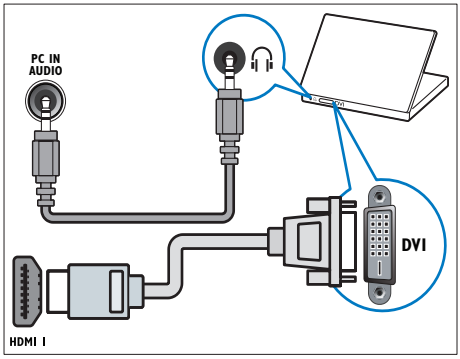
Note

- Connections via DVI or VGA require an additional audio cable.

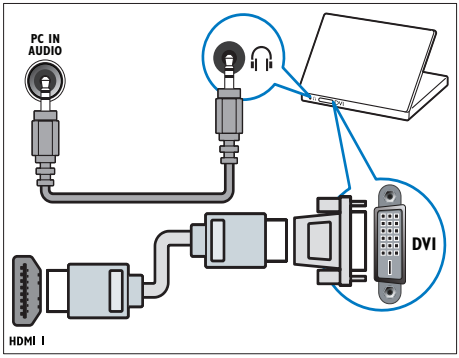
- HDMI cable



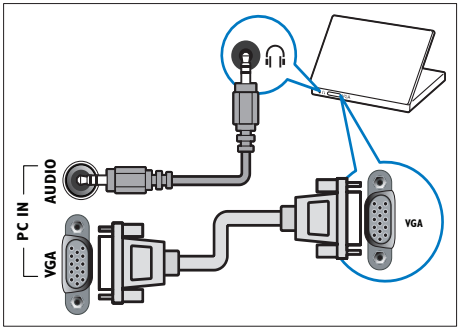
- DVI-HDMI cable



- HDMI cable and HDMI-DVI adaptor



- VGA cable



Use Philips EasyLink

Get the most out of your HDMI-Consumer Electronic Control (CEC) compliant devices with Philips EasyLink enhanced control features. If your HDMI-CEC compliant devices are connected through HDMI, you can control them at the same time with your TV remote control.

To enable Philips EasyLink, you need to:

- Connect at least two HDMI-CEC compliant devices through HDMI
- Configure each HDMI-CEC compliant device properly
- Switch on EasyLink

Note

- The EasyLink-compliant device must be switched on and selected as the source.
- Philips does not guarantee 100% interoperability with all HDMI CEC devices.

Switch on or off EasyLink

When you play an HDMI-CEC compliant device, the TV switches on from standby, and switches to the correct source.

Note

- If you do not intend to use Philips EasyLink, switch it off.

1 Press **MENU**.
2 Select **[Setup]** > **[TV settings]** > **[EasyLink]** > **[EasyLink]**.
3 Select **[On]** or **[Off]**, then press **OK**.

Use one-touch play

1 After you switch on EasyLink, press play on your device.
   ↳ The TV automatically switches to the correct source.

Use one-touch standby

When you press ⏻ on the TV remote control, the TV and all HDMI-CEC compliant devices switch to standby mode.

1 Press ⏻ (**Standby-On**) on the TV's or device's remote control.
   ↳ The TV and all connected HDMI devices switch to standby.

Set TV speakers to EasyLink mode

If you connect an HDMI-CEC compliant device that includes speakers, you can choose to hear the TV from those speakers instead of the TV speakers.
When you play content from an EasyLink compliant home theatre, if you want to mute the TV speakers automatically, turn on EasyLink mode.

1 Connect an HDMI-CEC compliant device to the HDMI connector.
2 Connect an audio cable from the SPDIF OUT connector to the EasyLink-compliant device's AUDIO IN connector.
3 Configure the HDMI-CEC compliant device properly (see the device user manual).
4 Press **MENU**.
5 Select **[Setup]** > **[TV settings]** > **[EasyLink]** > **[TV speakers]**.
6 Select one of the following, then press **OK**.
   - **[Off]**: Switch off TV speakers.
   - **[On]**: Switch on TV speakers.
   - **[EasyLink]**: Stream TV audio through the connected HDMI-CEC device. Switch the TV audio to the connected HDMI-CEC audio device through the adjust menu.
   - **[EasyLink autostart]**: Turn off TV speakers automatically and streams TV audio to the connected HDMI-CEC audio device.

Note

- To mute the TV speakers, select **[TV speakers]** > **[Off]**.

Select speaker output with Options menu

If **[EasyLink]** or **[EasyLink autostart]** are selected, access the Options menu to switch the TV audio.

1 While you watch TV, press OPTIONS.
2 Select **[Speakers]**, then press **OK**.

3 Select one of the following, then press **OK**:

- **[TV]**: On by default. Stream TV audio through TV and the connected HDMI-CEC audio device until the connected device switches to system audio control. TV audio is then streamed through the connected device.
- **[Amplifier]**: Stream audio through the connected HDMI-CEC device. If system audio mode is not enabled on the device, audio continue to stream from the TV speakers. If **[EasyLink autostart]** was enabled, the TV prompts the connected device to switch to system audio mode.

Use a Kensington lock

There is a Kensington security slot at the back of the TV. Prevent theft by looping a Kensington lock between the slot and a permanent object, such as a heavy table.

9 Troubleshooting

This section describes commonly encountered issues and accompanying solutions.

General TV issues

The TV does not switch on:

- Disconnect the power cable from the power outlet. Wait for one minute then reconnect it.
- Check that the power cable is securely connected.

The remote control is not working properly:

- Check that the remote control batteries are correctly inserted according to the +/- orientation.
- Replace the remote control batteries if they are flat or weak.
- Clean the remote control and TV sensor lens.

The standby light on the TV blinks red:

- Disconnect the power cable from the power outlet. Wait until the TV cools down before reconnecting the power cable. If the blinking reoccurs, contact Philips Consumer Care.

You forgot the code to unlock the TV lock feature

- Enter '8888'.

The TV menu is in the wrong language.

- Change the TV menu to your preferred language.

When turning the TV on/off/to standby, you hear a creaking sound from the TV chassis:

- No action is required. The creaking sound is normal expansion and contraction of the TV as it cools down and warms up. This does not impact performance.

Cannot remove 'e-sticker' banner displayed on the TV.

- To remove the logos and images, set the location of your TV to home.

1. Press **MENU**.
2. Select **[Setup]** > **[TV settings]** > **[Preferences]** > **[Location]**.
3. Select **[Home]** and press **OK**.

TV channel issues

Previously installed channels do not appear in the channel list:

- Check that the correct channel list is selected.

No digital channels were found during the installation:

- Check that the TV supports DVB-T, DVB-T Lite or DVB-C in your country.

Some channels are not automatically installed on my TV:

- During installation, make sure that you select the country where you are installing the TV.

Picture issues

The TV is on, but there is no picture:

- Check that the antenna is properly connected to the TV.
- Check that the correct device is selected as the TV source.

There is sound but no picture:

- Check that the picture settings are correctly set.

There is poor TV reception from an antenna connection:

- Check that the antenna is properly connected to the TV.
- Loudspeakers, unearthed audio devices, neon lights, high buildings and other large objects can influence reception quality. If possible, try to improve the reception quality by changing the antenna direction or moving devices away from the TV.
- If reception on only one channel is poor, fine tune this channel.

There is poor picture quality from connected devices:

- Check that the devices are connected properly.
- Check that the picture settings are correctly set.

The TV did not save your picture settings:

- Check that the TV location is set to the home setting. This mode offers you the flexibility to change and save settings.

The picture does not fit the screen; it is too big or too small:

- Try using a different picture format.

The picture position is incorrect:

- Picture signals from some devices may not fit the screen correctly. Check the signal output of the device.

Sound issues

There is a picture but sound quality is poor:

Note

- If no audio signal is detected, the TV automatically switches the audio output off — this does not indicate malfunction.

- Check that all cables are properly connected.
- Check that the volume is not set to 0.
- Check that the sound is not muted.

There is a picture but the sound quality is poor:

- Check that the sound settings are correctly set.

There is a picture but sound comes from one speaker only:

- Verify that sound balance is set to the centre.

HDMI connection issues

There are problems with HDMI devices:

- Note that HDCP (High-bandwidth Digital Content Protection) support can delay the time taken for a TV to display content from a HDMI device.
- If the TV does not recognise the HDMI device and no picture is displayed, try switching the source from one device to another and back again.
- If there are intermittent sound disruptions, check that output settings from the HDMI device are correct.
- If you use an HDMI-to-DVI adapter or HDMI-to-DVI cable, check that an additional audio cable is connected to **AUDIO IN** (mini-jack only).

Computer connection issues

The computer display on the TV is not stable:

- Check that your PC uses the supported resolution and refresh rate.
- Set the TV picture format to unscaled.

Contact us

If you cannot resolve your problem, refer to the FAQs for this TV at www.philips.com/support.

If the problem remains unresolved, contact Philips Consumer Care in your country as listed in this user manual.

Warning

- Do not attempt to repair the TV yourself. This may cause severe injury, irreparable damage to your TV or void your warranty.

Note

- Make a note of your TV model and serial number before you contact Philips. These numbers are printed on the back of the TV and on the packaging.
